## Galactic Speedway Self Evaluation

### Instructions

1. **Circle** the three that you focused on the most.
2. Make a **square** around what you could improve next time.

### Goals

My speeder has a clear **theme**  
(like fast and dangerous or large  
and clunky).

I **helped** others with ideas or  
issues on their project.

I used a **variety** of different  
pieces.

I took time to arrange all pieces  
**carefully**.

I scaled the **size** of parts so  
they all look different.

I **tested** frequently to make sure  
my speeder works and looks  
correct.

I made a design that was  
unique and **creative**.

I **asked others** for ways to  
improve my project and made a  
suggestion.
